The AMANO Grand Central is the largest hotel the AMANO Group has built to date and it remains faithful to the company vision: luxurious but affordable atmosphere that sets a new standard for urban travel. All 250 rooms are furnished in a pleasant and modern purist style with quality design and offer the short-term visitor or business clients the perfect comforts during their stay. Whether its business travel or a short city visit – the AMANO Grand Central focuses on perfection in all areas: four lightflooded conference rooms are equipped with state-of-the art technology, a fitness area with a view of the government district, the premium location and the gastronomic concept leave nothing to be desired. Whether you are looking for a business lunch or dinner: the ground floor BISTRO serves city visitors or Berlin folk with the finest culinary dishes. After a long day of meetings or a day of exploring the city, the spacious and opulently planted rooftop terrace with a skybar is the ideal place to relax and unwind. Here too, the creators of the renowned AMANO Bar put great emphasis on a creative and quality bar culture that enriches the city's night life and would like to invite Berliners and visitors alike for a sundowner drink in the summer.
